Palisades Dr. Traffic Signal

We need YOUR help!

Some of our members may know that a lot of time and effort has been put in by SYRC in an attempt to gain approval by the City for a traffic signal and/or marked crosswalk to be placed at the intersection of Palisades Circle (South) and Palisades Drive.

Even more members know how incredibly dangerous this intersection is, as cars carelessly speed up this road, and visibility at this intersection specifically is very poor. This has been a huge safety concern of SYRC, as members that live within the Upper and Lower Woodies associations must cross Palisades Drive to access the rec center. Many enjoy walking over, but cannot without extreme risk. This traffic signal and crosswalk would help to control these drivers and significantly lower the chance of a possibly fatal situation.

City representatives and The Los Angeles Department of Transportation (LADOT) surveyed the intersection and informed SYRC the intersection does not qualify for a traffic signal or marked crosswalk at this time. SYRC is asking and working with LADOT of the possibility of funding a marked crosswalk or signal by the highlands community and if the city can approve this. A response has not been given.

Moving forward: Please talk with your neighbors and have ANY person(s) from ANY association who get in ANY incident at this intersection file a report with LAPD as this information is used as part of their assessment to upgrade the intersection. Maybe some recent accidents were never reported at all and this information is used in the DOT's survey.

Please forward to syrkdir@gmail.com any videos of excess speeding being seen, dash cam video's, dangerous pedestrian crossings, or accidents witnessed etc. and SYRC will forward them to LADOT.

The highlands community is disappointed with this assessment, but with the collaboration of SYRC and local residents, we should continue our effort to work with the city to come up with a solution for a safer intersection.
